

ROOM DIVIDER PLANNING & CONFIGURATION GUIDE

SCREENFLEX
Portable Room Dividers

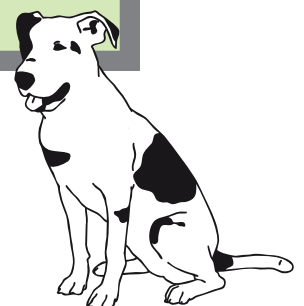

Customer quote:

“We were pleased with how quickly the divider arrived at our office. The quality is wonderful, simply open the box, wheel it out and it is ready to use. Thank you for a great product!”

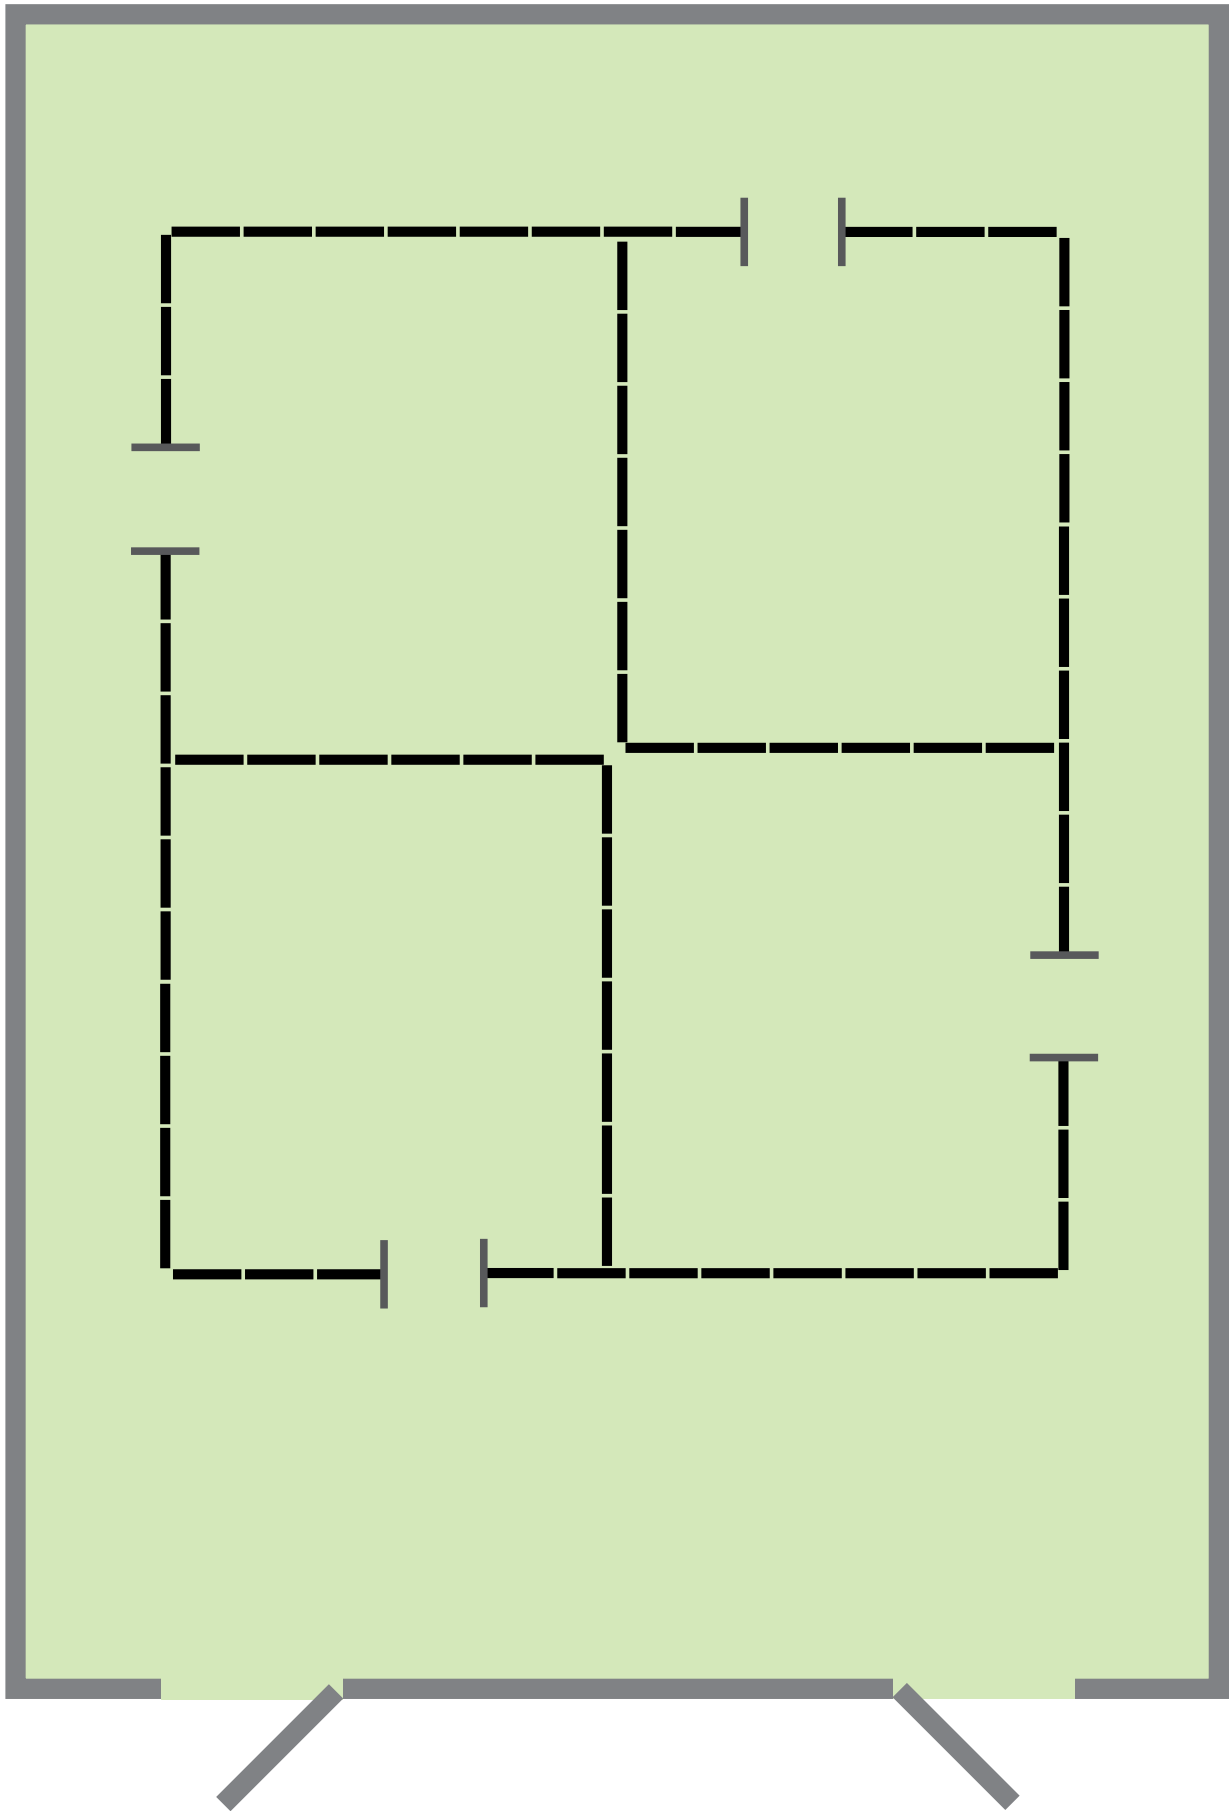

Jennifer from Overall Supply Inc
Inverness, FL

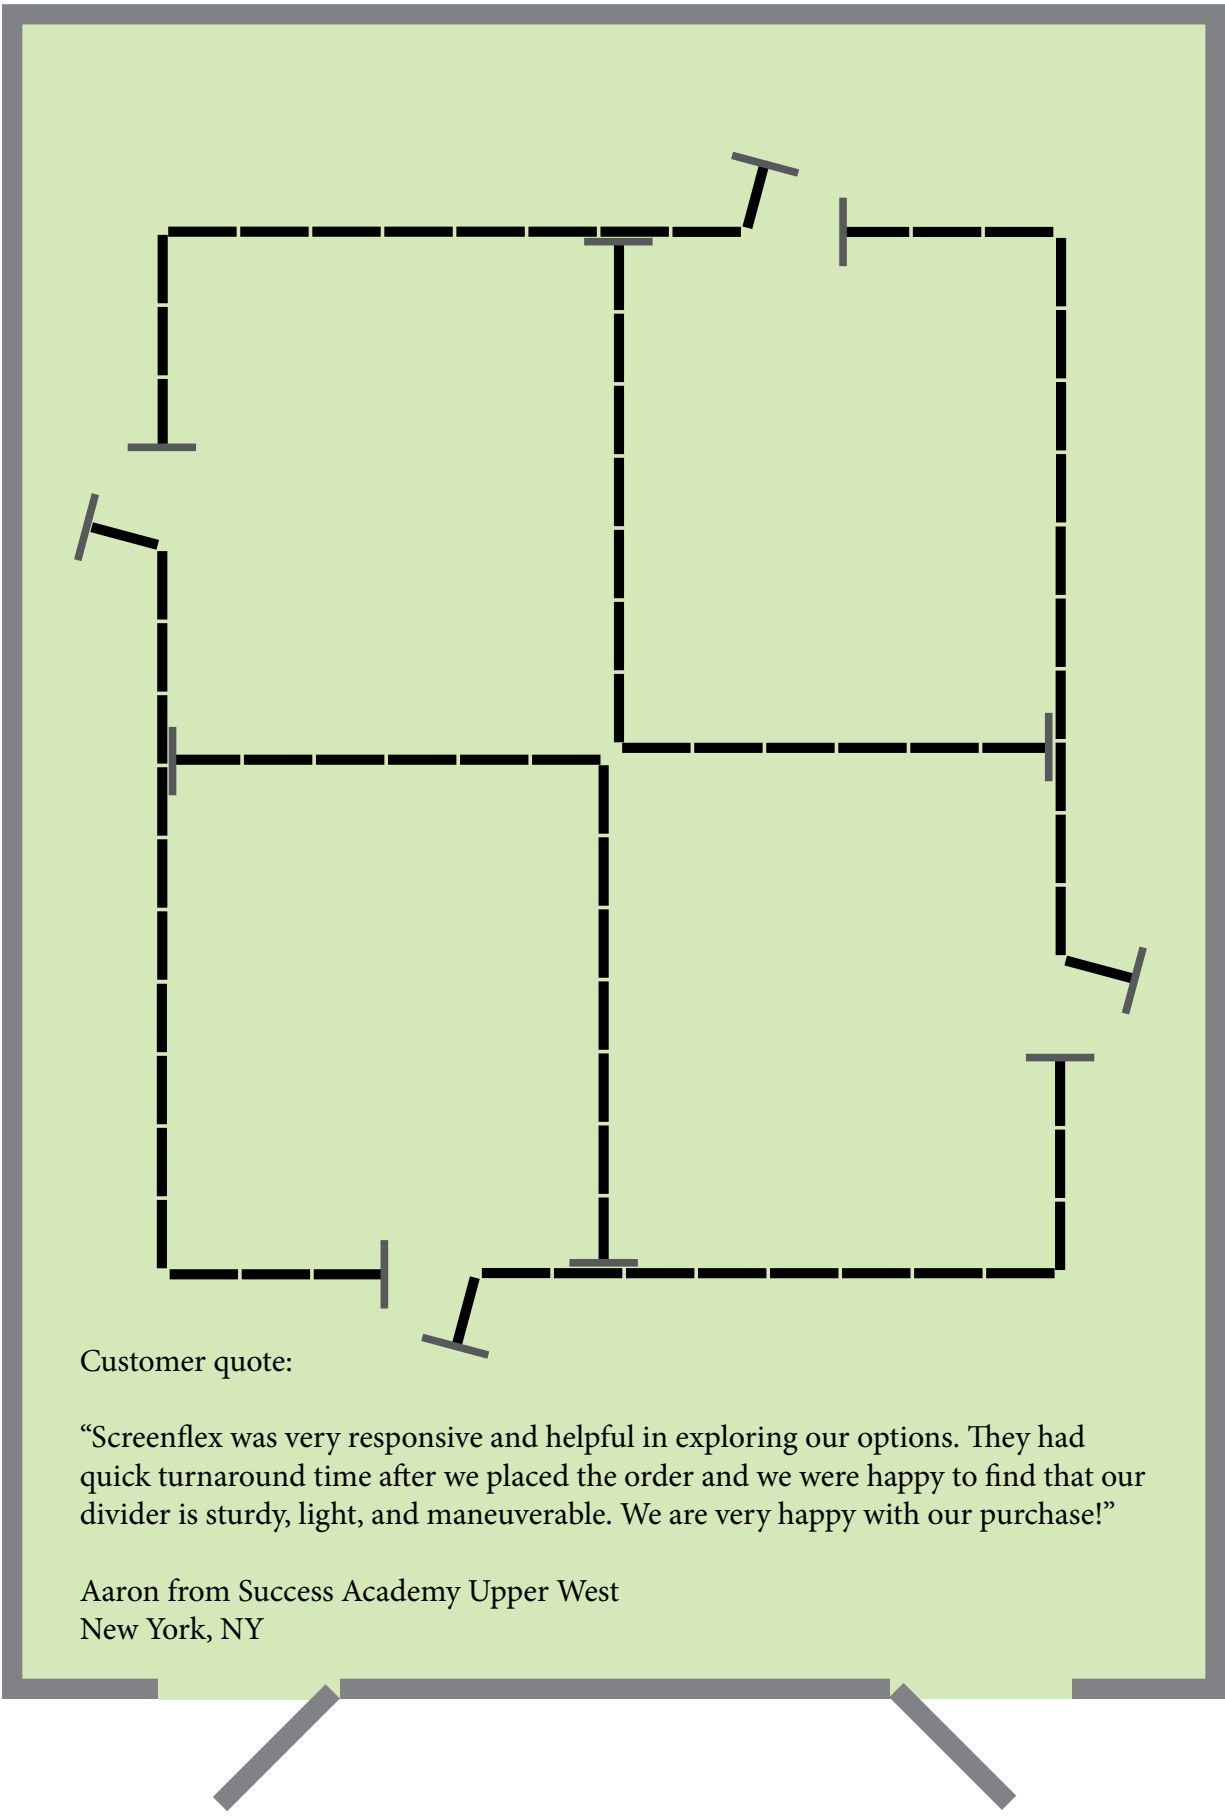

Crazy simple way to
make 4 rooms with only
2 dividers!

Two room dividers set in an “L” configuration and brought together in the corners divides a room nicely into quarters.

Two room dividers set in an "L" configuration and brought together in the corners plus 4 enclosing dividers. Simple gaps left for entrance/exit.

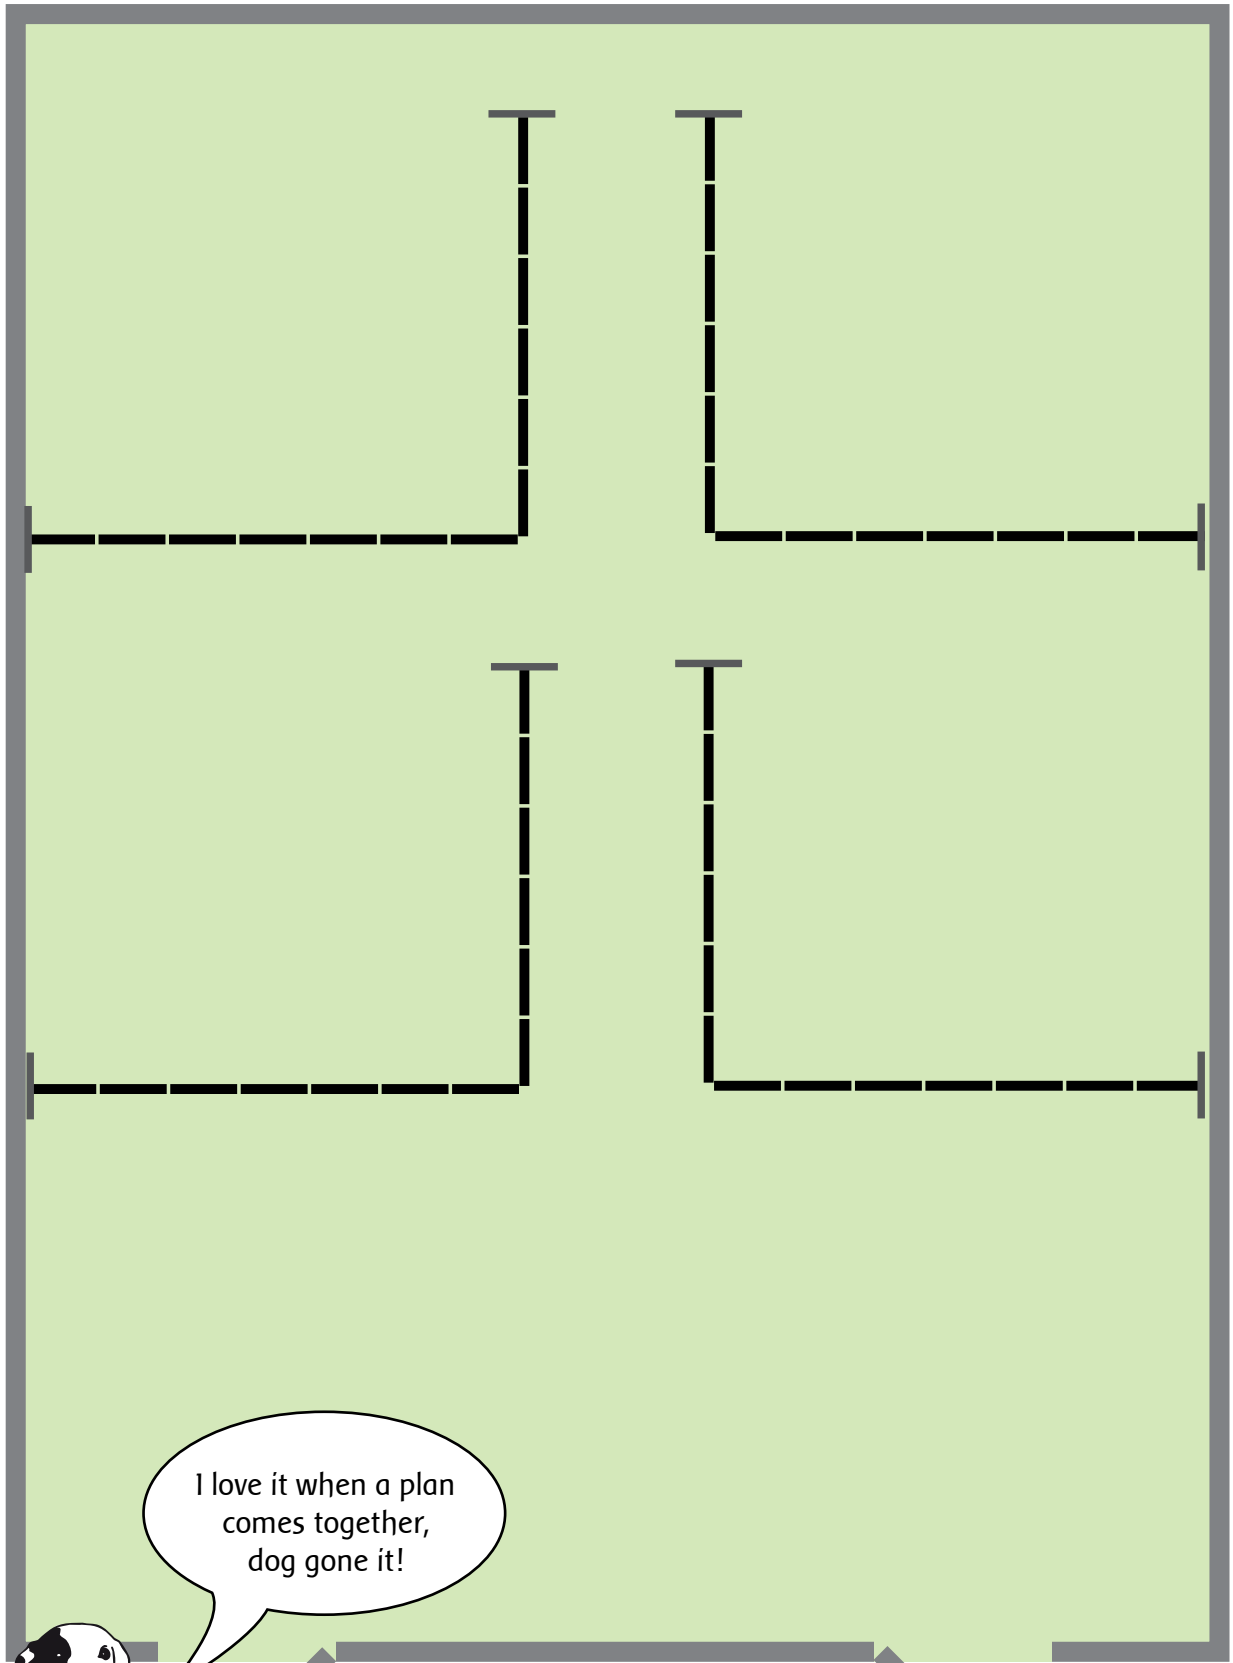

Customer quote:

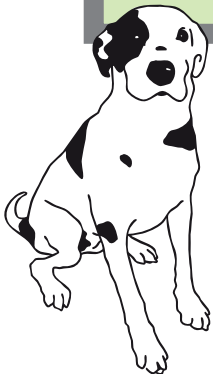

“Screenflex was very responsive and helpful in exploring our options. They had quick turnaround time after we placed the order and we were happy to find that our divider is sturdy, light, and maneuverable. We are very happy with our purchase!”

Aaron from Success Academy Upper West
New York, NY

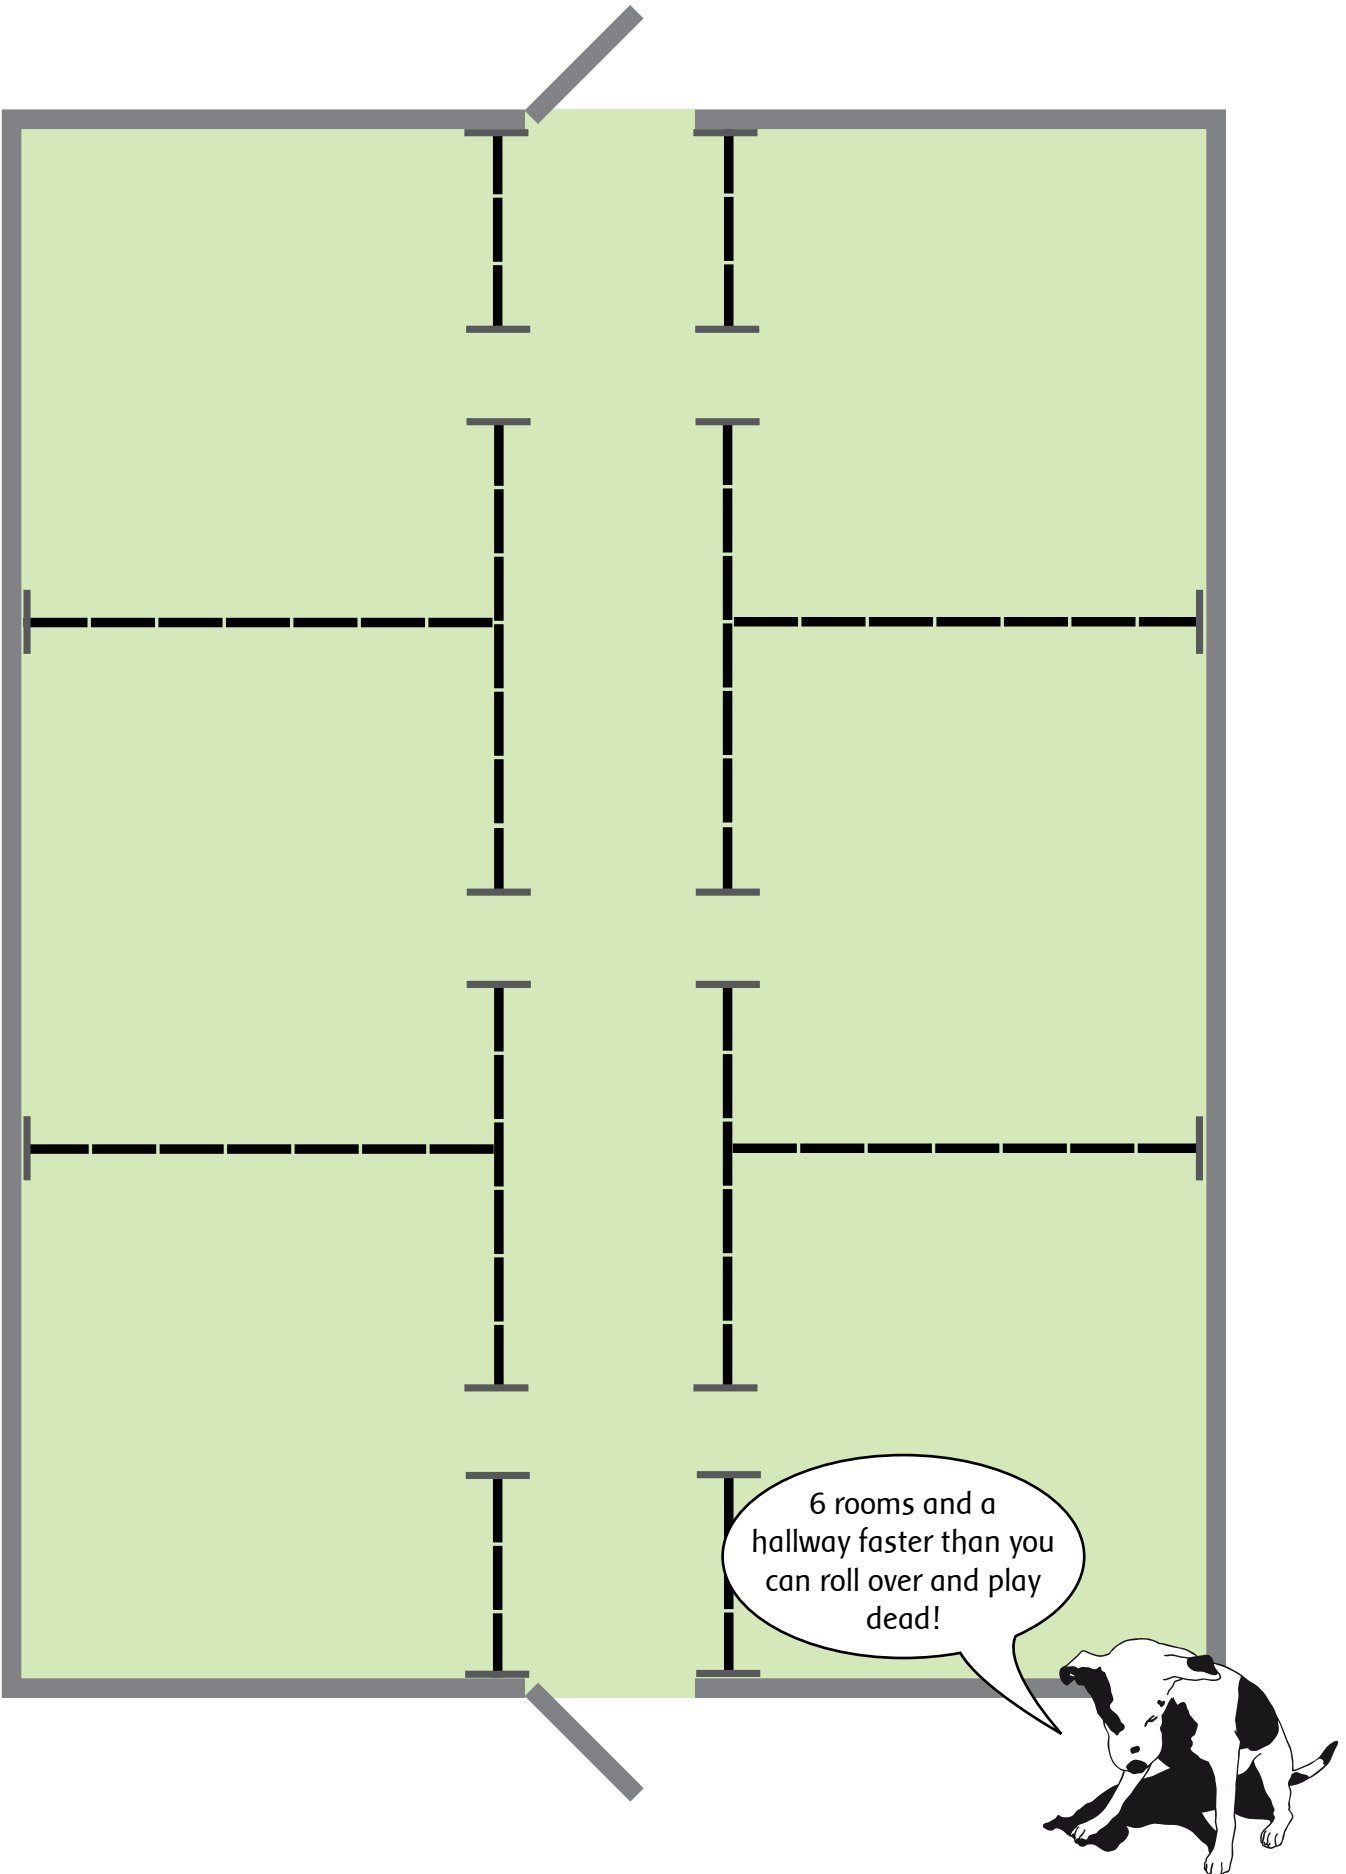

The same quadrant plan, with the addition of our optional doors.

I love it when a plan comes together, dog gone it!

Four room dividers with 90 degree corners. The aisle allows traffic to easily flow without disturbing the other rooms.

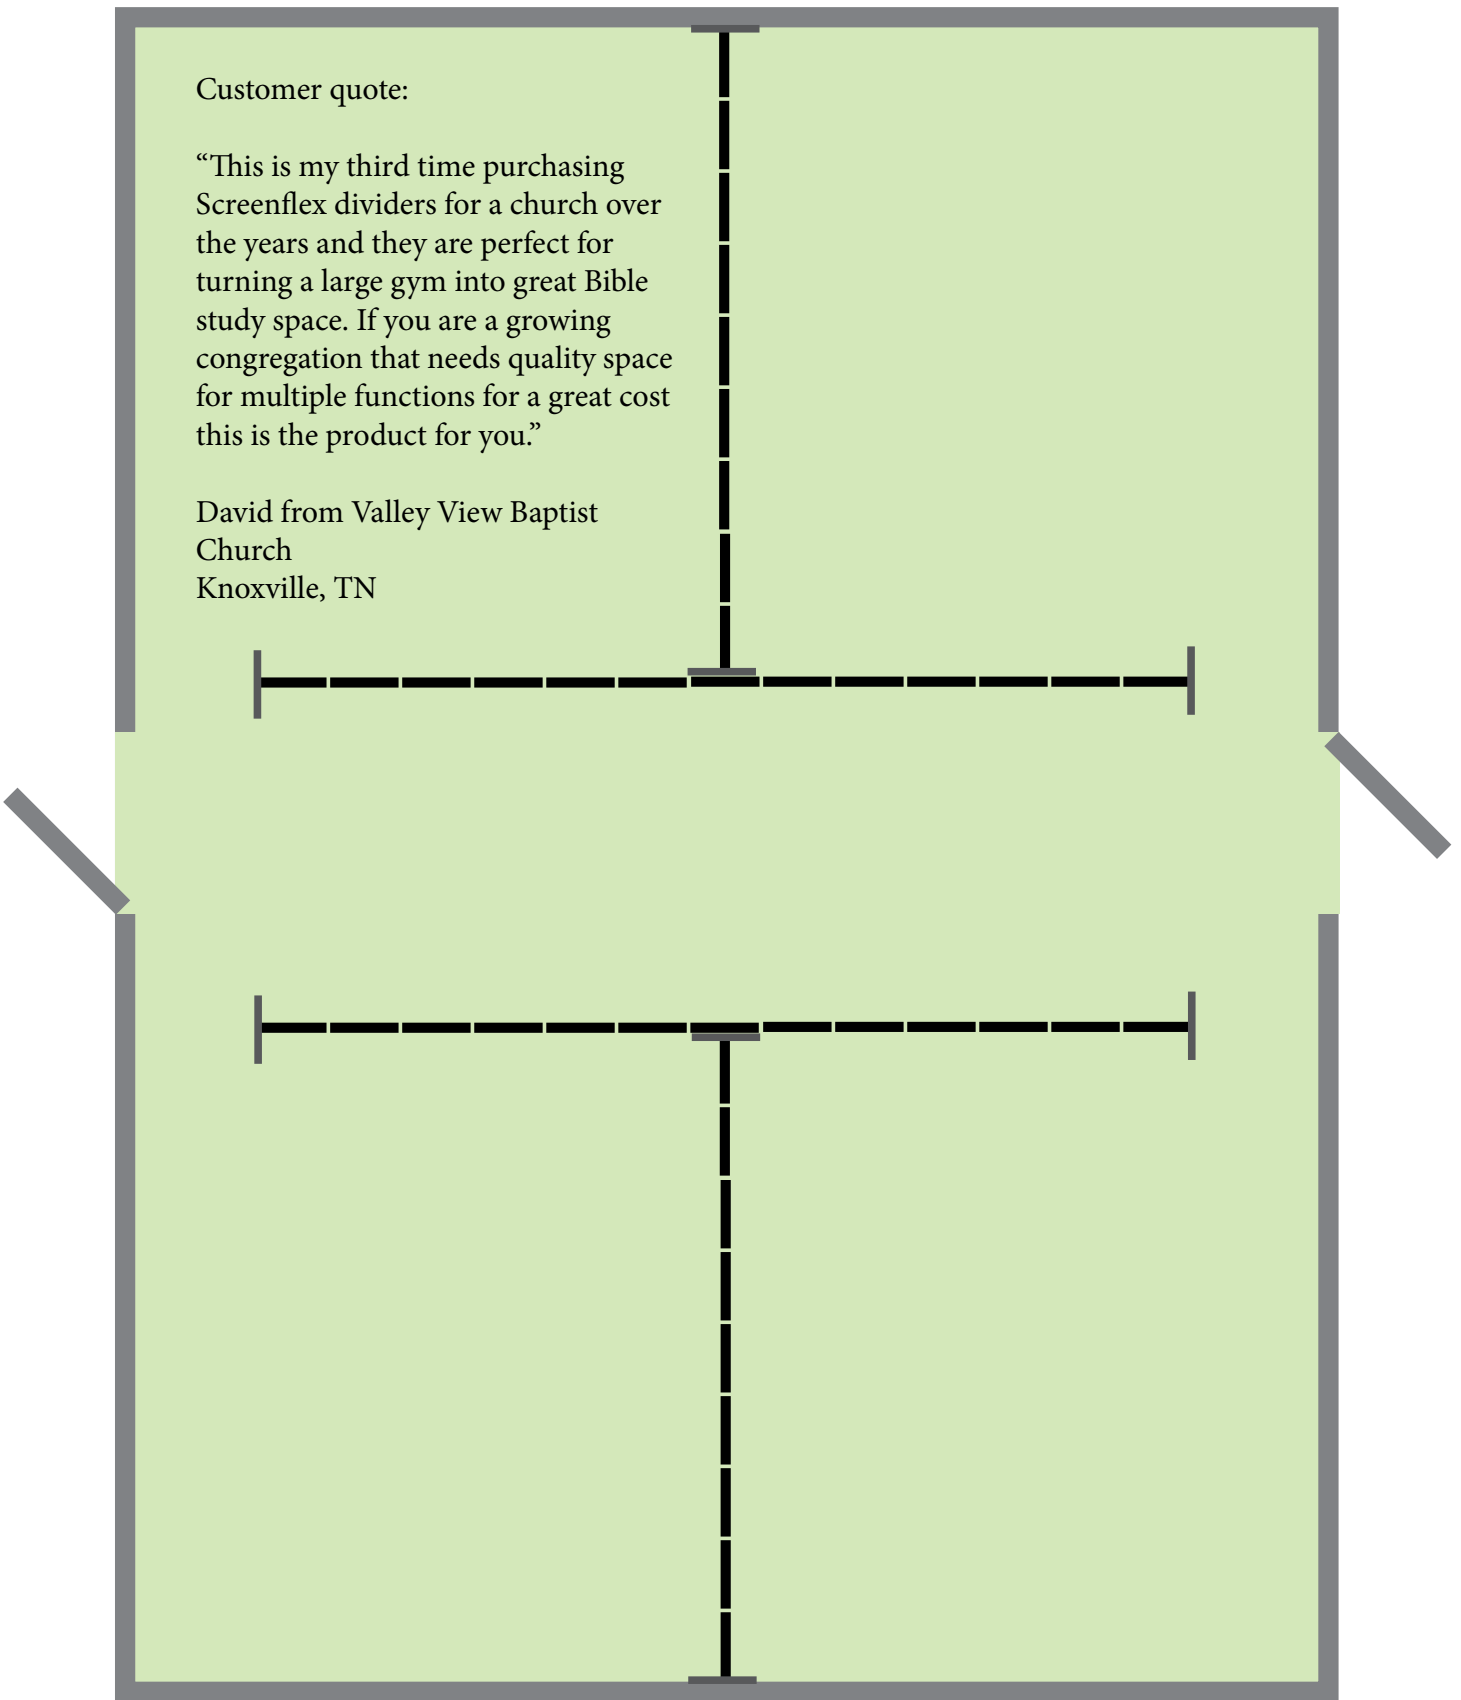

Now we're getting tricky with 6 rooms with an aisle and open doorways.

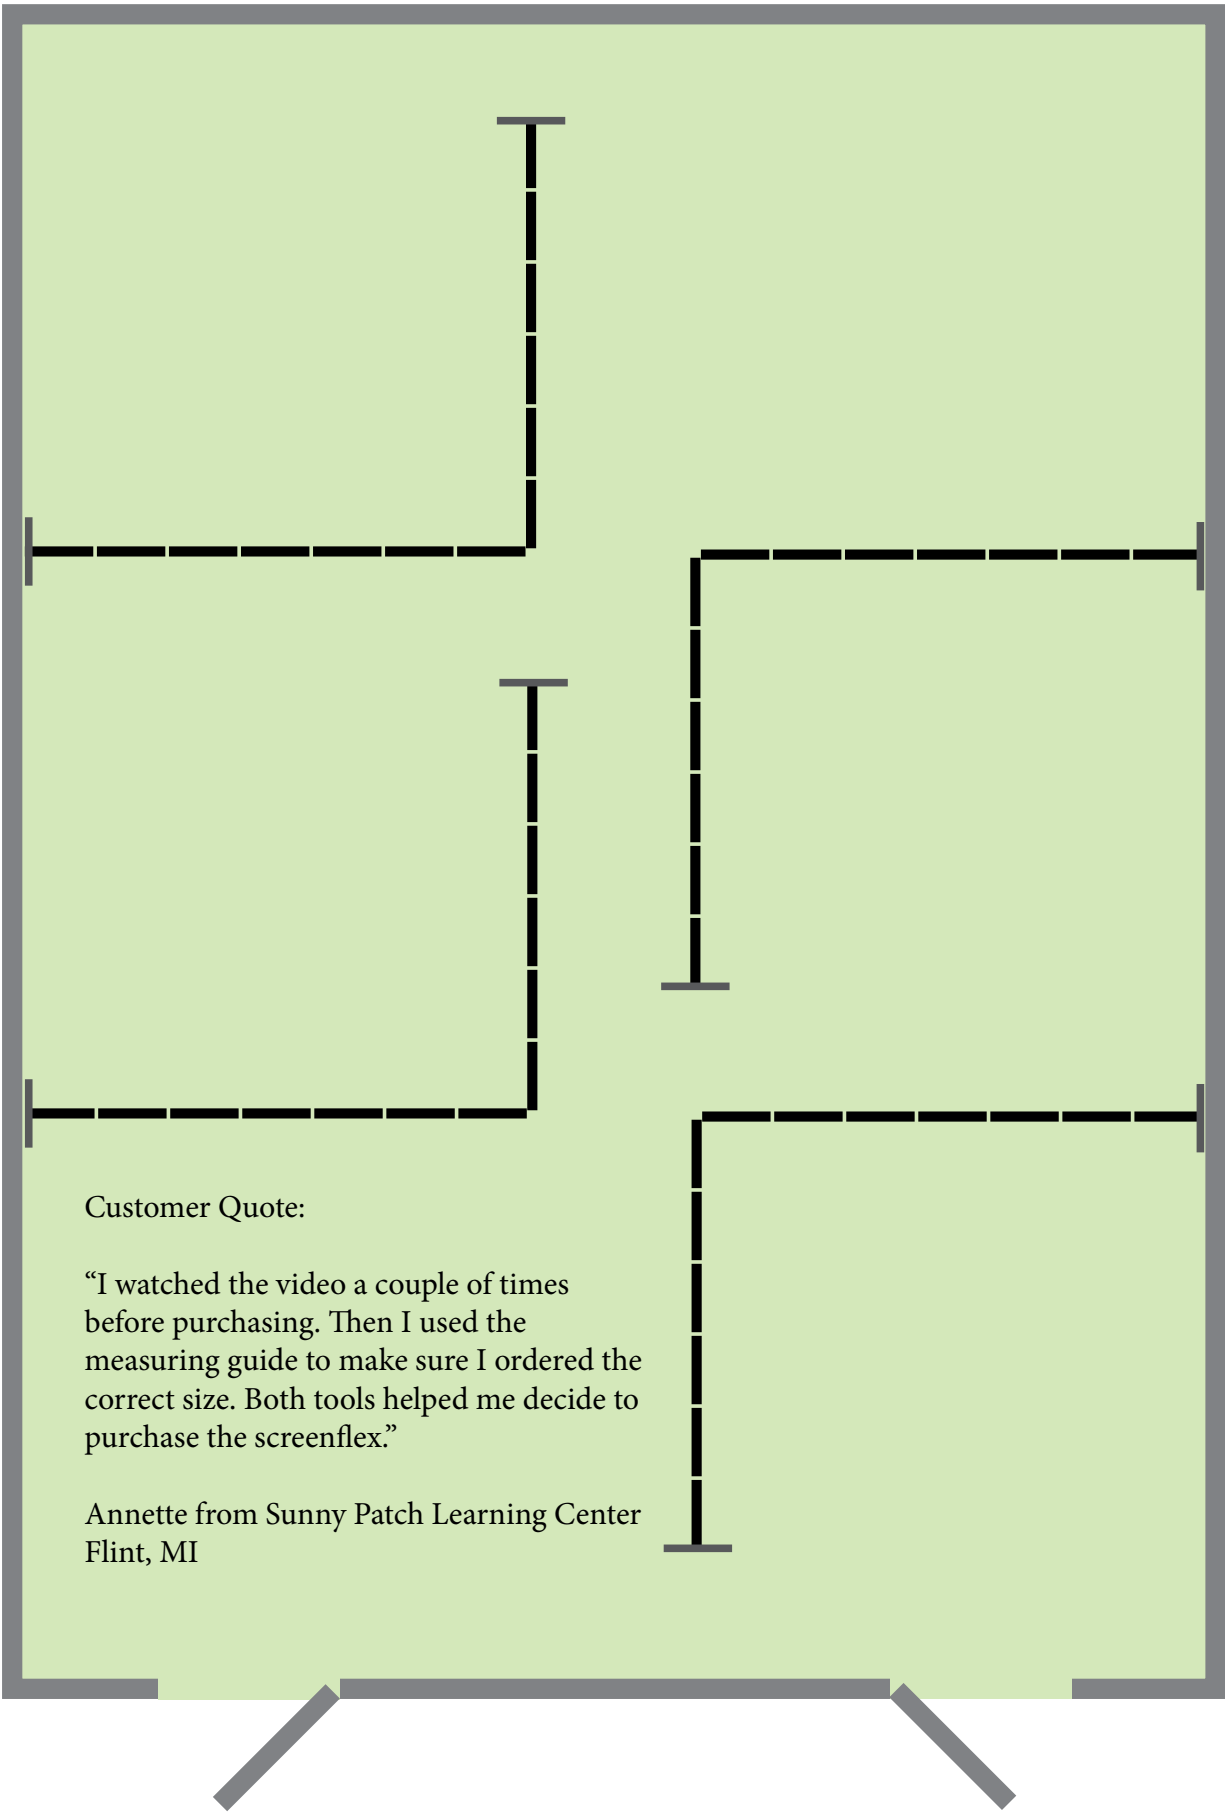

Customer quote:

“This is my third time purchasing Screenflex dividers for a church over the years and they are perfect for turning a large gym into great Bible study space. If you are a growing congregation that needs quality space for multiple functions for a great cost this is the product for you.”

David from Valley View Baptist Church
Knoxville, TN

Here's a floor plan that utilizes the rooms existing walls, and divides the space nicely on a budget. Note that it only takes 4 room dividers to create 4 private spaces while maintaining a wide aisle for traffic flow.

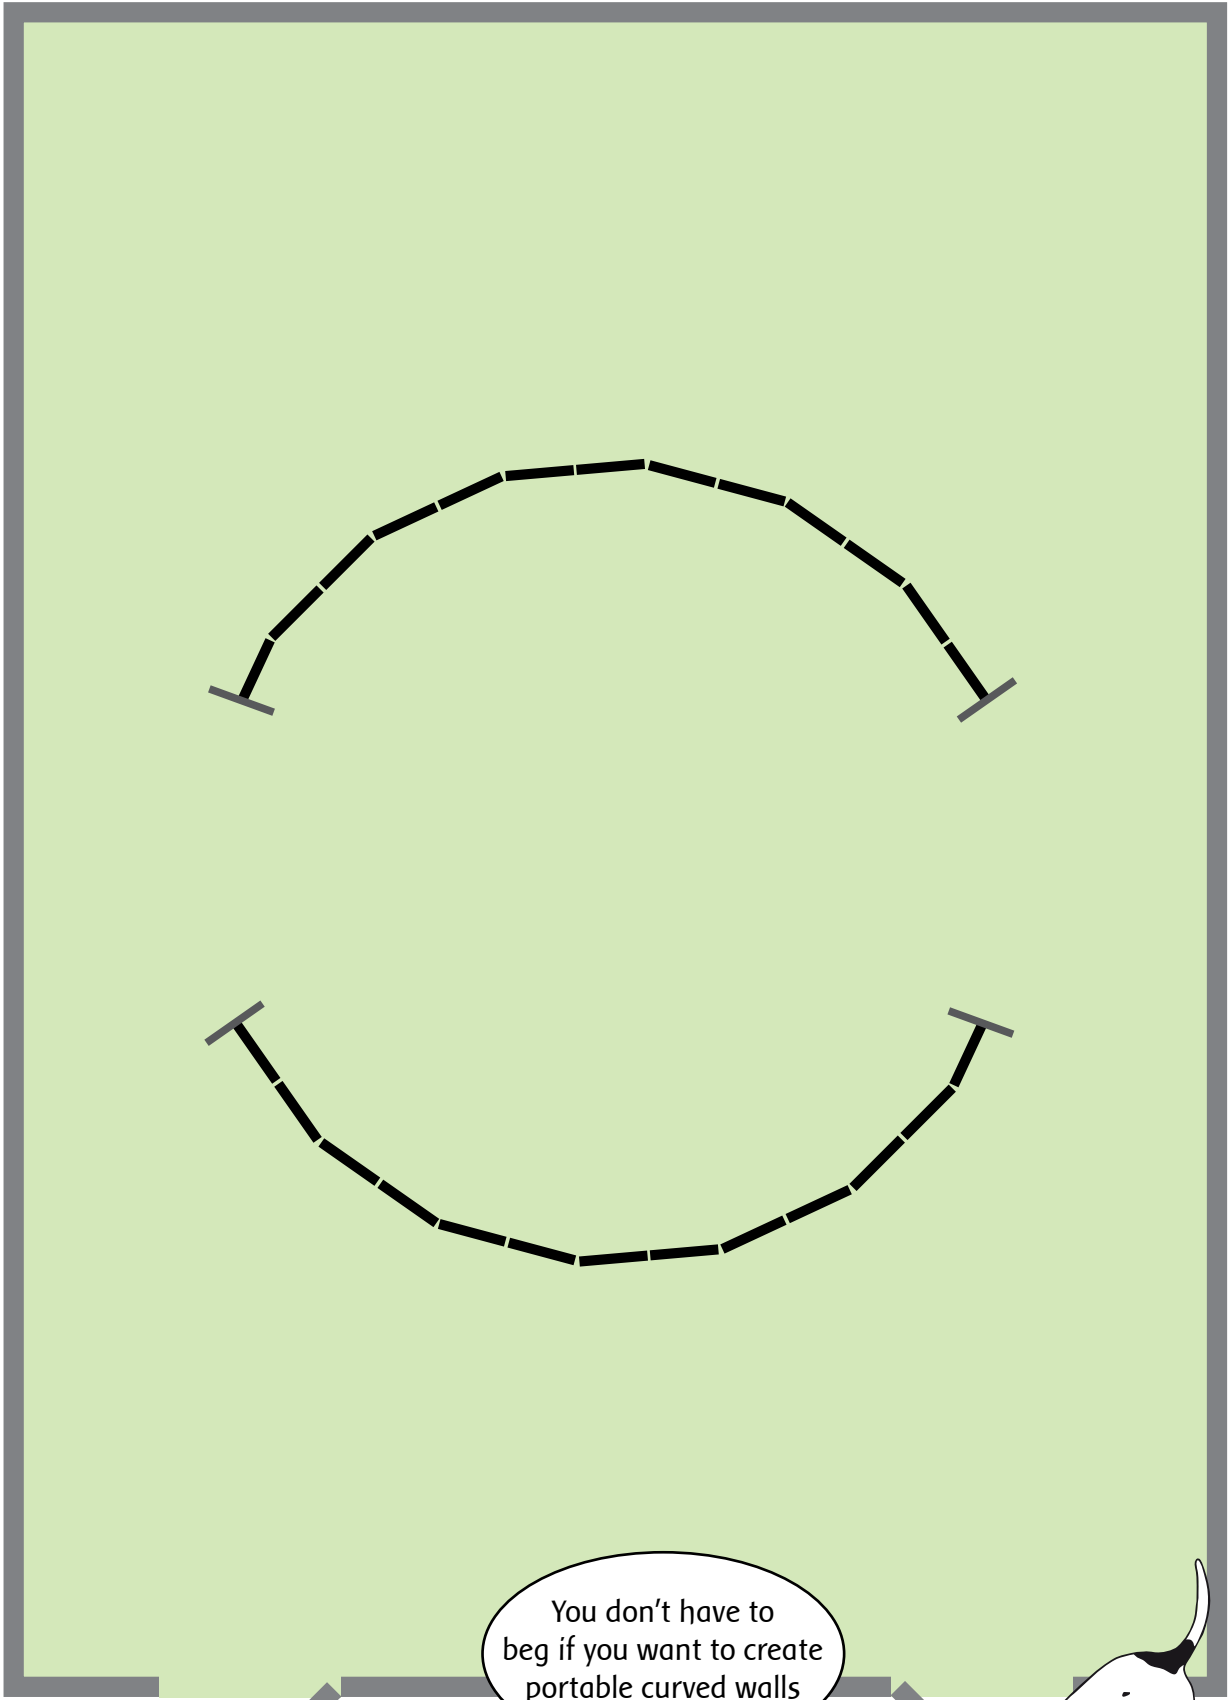

Customer Quote:

“I watched the video a couple of times before purchasing. Then I used the measuring guide to make sure I ordered the correct size. Both tools helped me decide to purchase the screenflex.”

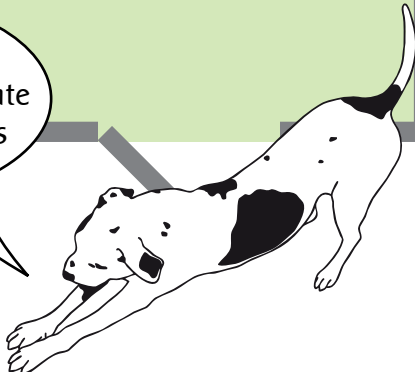

Annette from Sunny Patch Learning Center
Flint, MI

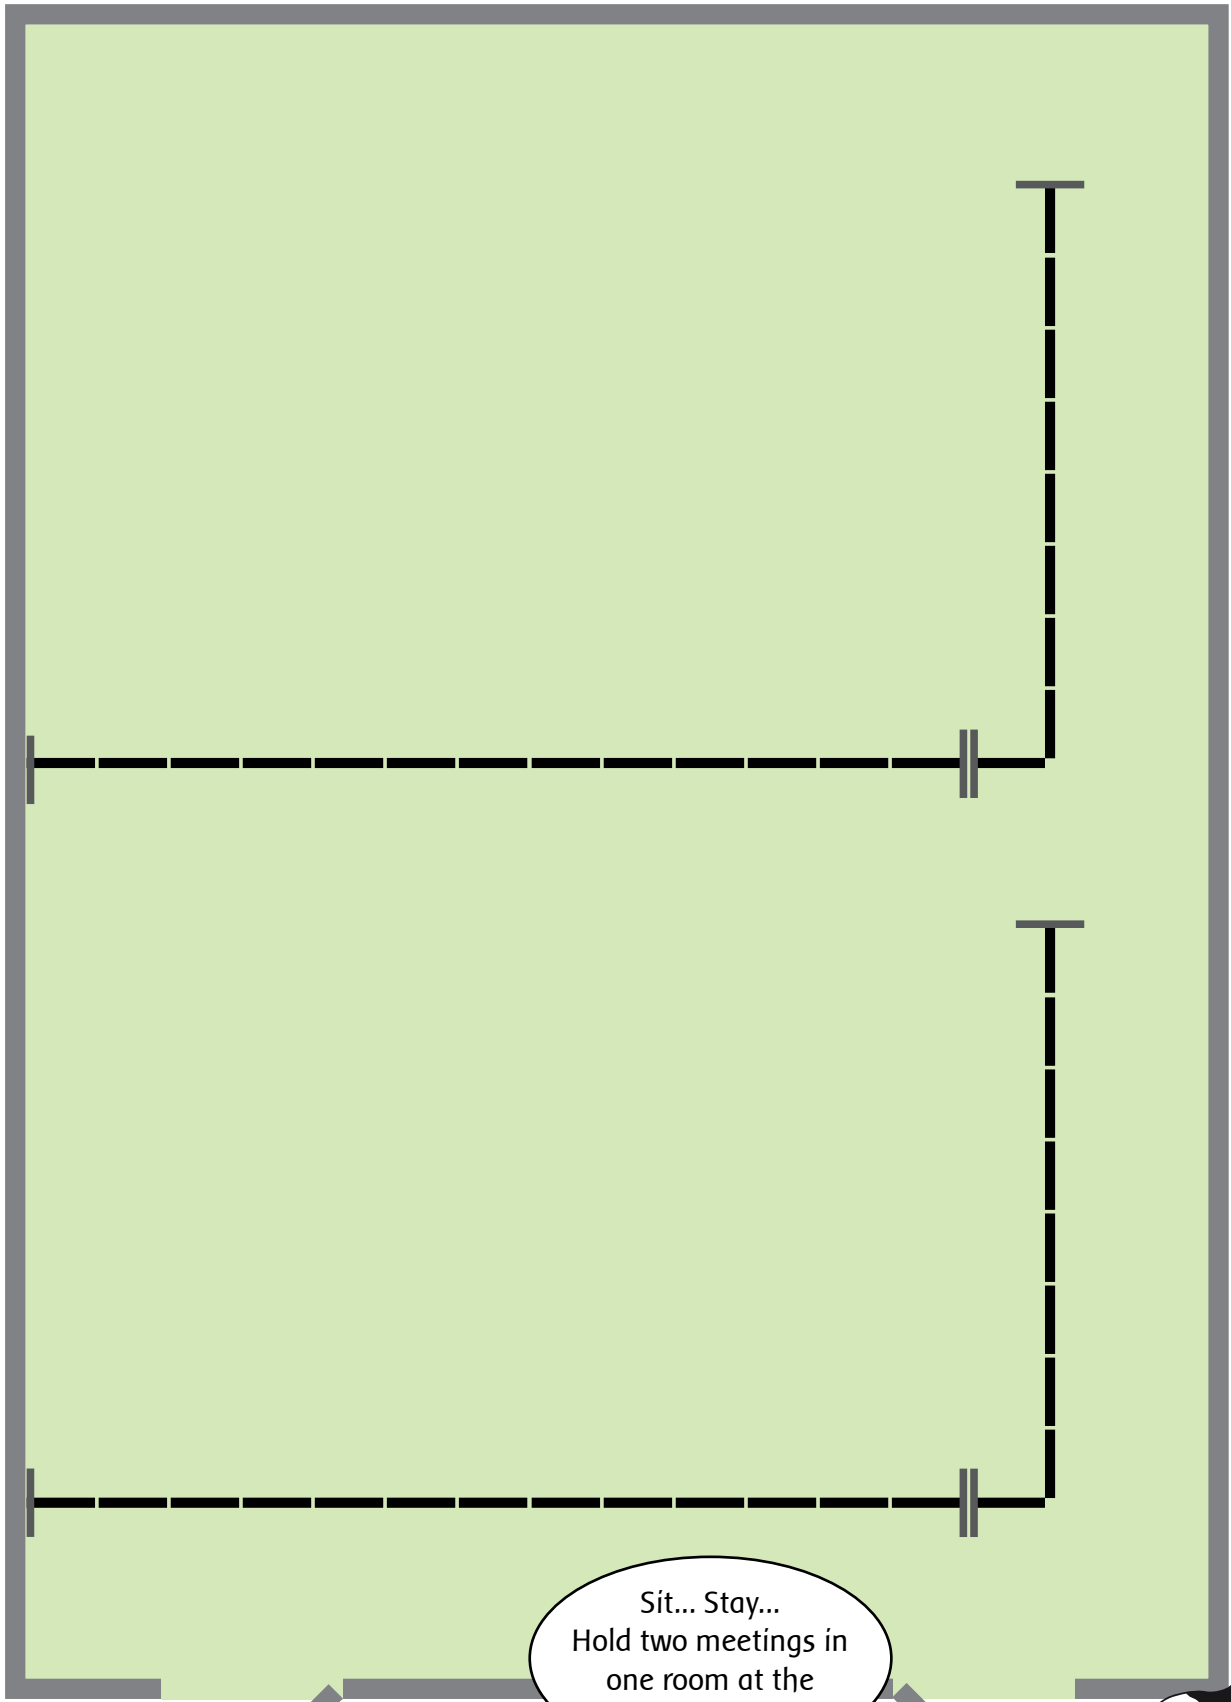

This switched-up layout eliminates seeing through the door openings from one room to another.

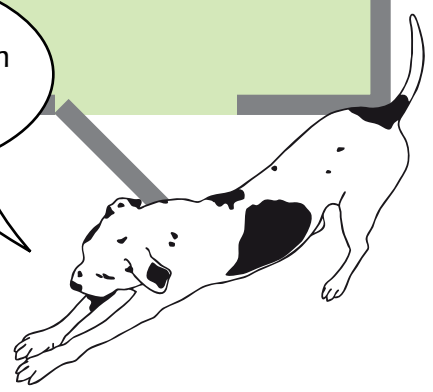

You don't have to beg if you want to create portable curved walls

Curved walls are a snap with hinged panels.

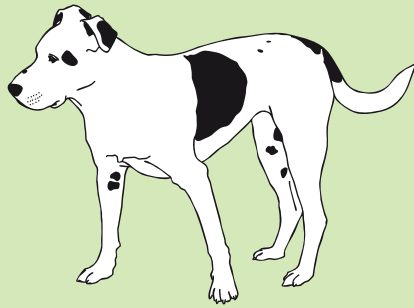

Sit... Stay...
Hold two meetings in
one room at the
same time!

Two large rooms with an aisle so that people walking by won't be a distraction.

Kink two panels to adjust to your exact room width.

Here are two tricks your Portable Room Dividers can do: Place a kink with the hinges in two panels and you can adjust dividers to fit perfectly wall-to-wall. Use the end panel as a door; simply roll it open and closed!

SCREENFLEX ROOM DIVIDER

Planning and Configuration Guide

Want to make a different configuration with the same dividers for each day of the week?
No problem, this example shows the same 4 Screenflex Room Dividers set up differently each day!
