

ASSEMBLY INSTRUCTIONS

Use two people to lift and assemble your new room divider and in a few minutes you will have your divider ready for years of service. To complete the assembly process there are only eight bolts to install.

PARTS LIST

- One - 3/16" Allen wrench
- Two - 1" x 1" x 28" horizontal legs with casters attached
- Two - Gusset plates with hooks
- Eight - 5/16" Button head bolts
- Eight - Lock washers

STEP 1

Clip gusset plate by hooks into the two slots on the square tube with casters

STEP 2

Position leg assembly to the corner of the panel so that all four holes line up. Insert bolts and tighten using the enclosed allen wrench.

STEP 3

Lift divider from assembly surface and lower to the floor at a true 90° angle.
